### **The Express Entry has two steps**

**1.** Potential candidates complete an online Express Entry profile with eligibility criteria like: Skills, Work Experience, Language Ability, Education and Other details that will help CIC for assessment

As per CIC "Anyone who does not already have a job offer supported by a Labor Market Impact Assessment (LMIA) (if you need one), or a nomination from a province or territory, must register with Employment and Social Development Canada's (ESDC) Job Bank. Job Bank will help connect Express Entry candidates with eligible employers in Canada. There will be no LMIA fee for Permanent resident applications".

**2.** The highest-ranking candidates in the pool will be invited to apply for permanent residence. Candidates will be marked against others in the pool using a point based system called the Comprehensive Ranking System.

Candidates with the highest scores in the pool will be invited to apply. Candidate gets additional points for

- Job offer supported by a Labor Market Impact Assessment /A nomination by province or territory

These additional points will make a candidate rank high enough to be invited to apply at the next eligible Draw of candidates. If someone is invited to apply, they will have 60 days to submit an online application for Permanent Residence. Candidates can stay in the pool for up to 12 months. If they do not get an Invitation to Apply for permanent residence within 12 months of submitting an Express Entry profile, they may choose to resubmit the application within 60 days, if they still meet the criteria, they can re-enter the pool. <b>Total Area</b>	<b>9,984,670 km<sup>2</sup> (3,855,100 sq. mi)</b>
<b>Population</b>	<b>35,872,748 (2016 data)</b>

## **Why Canada:**

For several years now, Canada has been accepting around quarter of a million new Permanent Residents each year. For people with skills, work experience and a good standard of English or French, qualifying for residence is not a huge barrier. Once accepted, you can take pleasure from the fact that you will be free to live permanently in a country consistently rated by the UN as the world's best country to live in. Furthermore, Canada is the world's second biggest country, rich in natural resources. Despite the abundance of natural wealth, real estate in Canada is cheap compared with other developed countries. Add to this the fact that Canada's 32 million residents enjoy virtually unlimited recreational opportunities and you might be forgiven for thinking you have found paradise.

**Canada**, the second largest country in the world; is a collection of ten fairly large provinces and three territories. The national flag of Canada holds a large red maple leaf in the middle with thick red borders on the two sides. Canada represents Federal Constitutional Monarchy with Parliamentary democracy. Ottawa is the capital city while Toronto is the largest city of the country. The official languages of the country are English and French. Canada is a fast growing country with an estimated annual growth of 2.4%. It is one of the richest countries of the world. And is also one of the leading producers of several minerals.

In addition, Canada's largest cities Vancouver, Toronto and Montreal have been recognized as world class cities to live and work, for their cleanliness and safety and for their cultural activities and attractive lifestyles.

## **SOCIAL BENEFITS**

- Live and Work anywhere in Canada.
- Become a Canadian Citizen after living in Canada for three years.
- Purchase/ Sell property in Canada.
- Own and Operate a Business in Canada.
- No Visa required by Canadian citizens/ PR holders to visit USA.
- Entitled to all benefits from Social Programs in effect in the Province of residence of Immigrant like free medical, free education, children allowances, mother's allowances unemployment insurance etc.

## **Benefits of Migration to Canada**

Canada is generally at the top in the list of countries people select for migration. Diverse people with great geographical features, plenty of utilizable resources, various career opportunities are the main attraction of Canada. The safety and the sense of being secure is what draws people to stay in Canada and the state government itself ensures high level of safety. Canadian social help system is also very renowned & organizes various courses for people who have lost their job and want to start afresh in a new field. The social system assists in job placements.

Canada is an economically stable country and the wealth flow ensures that the people can get good remuneration for their job and this is very rewarding as stable income allows people to enjoy a happy life.

It is overall a quiet and safe place to settle in and the process of immigration is not as complex as in other countries. The Canadian authorities evaluate the potential immigrants wanting to settle for jobs on the basis of educational qualification, age, financial stability, work experience and compatibility in language.

## **Lifestyle & Culture**

Throughout the world, Canada is well known as...

- A nation of immense natural beauty - wide-open spaces, mountains, trees and lakes;
- A modern, environmentally responsible, progressive nation with an open and generous society;
- A nation in which all people have the opportunity to grow and develop in their own way;
- A nation that upholds its international commitments;
- A nation made up of honest, friendly, polite, well-educated, interesting and healthy citizens;
- A nation that respects the contributions and individuality of different cultures;
- A nation with compassion towards its own citizens and warmth to all peoples of the world.

From all time jazz greats and classical musical genius, to award-winning authors, animation innovators and revolutionary circus entertainment, Canada's achievements continue to gain much respect and admiration on the international stage of arts and culture.

Canadian culture has historically been influenced by British, French, and Aboriginal cultures and traditions. It has also been influenced by American culture because of its proximity and migration between the two countries. American media and entertainment are popular, if not dominant, in English Canada; conversely, many Canadian

cultural products and entertainers are successful in the U.S. and worldwide. Many cultural products are marketed toward a unified "North American" or global market.

### Wages in Canada

Graduates in the secondary education sector earn attractive salaries by Canadian standards. Annual salaries vary quite widely depending on the employer. Average Weekly Wages: \$13 to \$ 95 per hour. In practice, wages vary from city to city and province to province - sometimes quite widely.

### Average Housing Costs in Canada

Housing Canada has some of the cheapest housing in the developed world. The country has huge forests and timber is readily available as a building material. Houses in Canada are typically timber-framed and, because of climate extremes, the housing stock is usually high quality and well insulated.

#### Canadian Cities Average House Prices

<i>City</i>	<i>Average House Price( Monthly)</i>
Vancouver, BC	\$2,793
Toronto, Ont	\$2,300
Calgary, Alb	\$2,300
Ottawa, Ont	\$2,000
Montreal, Que	\$1,815
Regina, Sask	\$2,200
Halifax, NS	\$2,100
Fredericton, NB	\$1,637

Canadian housing is cheap compared with other developed nations – the average house price in Canada is around seven times the average annual wage. Prices are highest in Ontario and Alberta (six to seven times the average wage) and Vancouver (eleven times the average wage). People moving to Canada with the proceeds of house sales from countries with more expensive housing can often buy a house in Canada with a considerably reduced mortgage. This leaves more of their income for other activities and lowers their cost of living in Canada significantly.

<i>Average Household Expenses per month CA\$</i>

- Petrol / Gasoline and cars are cheaper in Canada.
- Power is cheaper, **but** you use more power to heat your house in a typical Canadian winter.

## Education in Canada

Is provided, funded and overseen by federal, provincial, and local governments. Education is within provincial jurisdiction and the curriculum is overseen by the province. Education in Canada is generally divided into Elementary (Primary School, Public School), followed by Secondary (High School) and Post Secondary (University, College). Within the provinces under the ministry of education, there are district school boards administering the educational programs. Education is compulsory up to the age of 16 in every province in Canada, except for Ontario and New Brunswick, where the compulsory age is 18. In some provinces early leaving exemptions can be granted under certain circumstances at 14. Canada generally has 190 school days in the year, officially starting from September (after Labor Day) to the end of June (usually the last Friday of the month, Wednesday in some Ontario schools).
